

MAT « CANCUN » COMPETITION AEROBIC FLOOR

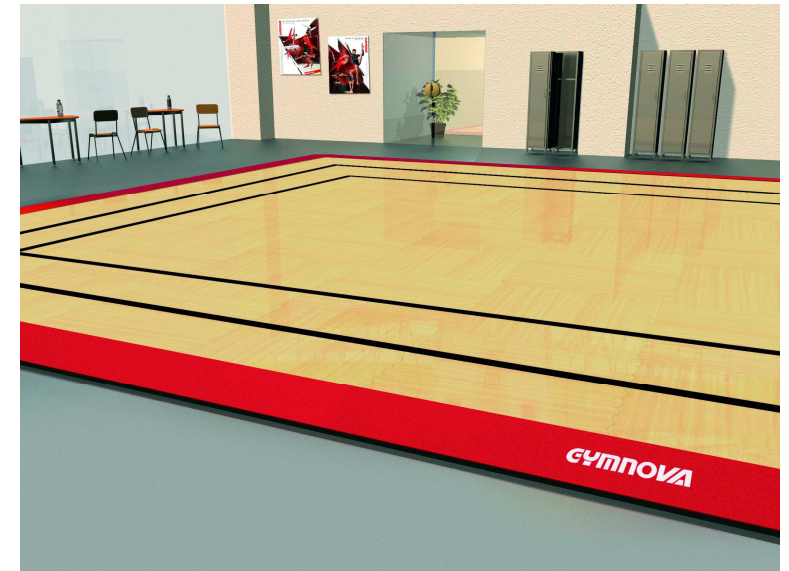

- ❑ **F.I.G. Approved**
- ❑ High elasticity surface
- ❑ Dedicated foam mounts provide excellent impact absorption
- ❑ Quick and easy to set-up
- ❑ The markings for the peripheral exercise zones enable the gymnastics area to be visualized exactly
- ❑ Total security

- ❑ This floor has been used in some of the most prestigious competitions:
 - European Championships, Czech Republic - 2009
 - World Championships – 2004, 2006, 2010, 2012 and 2014
 - FIG Suzuki World Cup 2017, Tokyo (JPN)
 - 7th International open competition 2017, Canthanhede (POR)
 - The 12th Heathrow International 2017, Bracknell (GBR)

TECHNICAL FEATURES

- ❑ Constructed using a system of waved-edge panels fitted with resilient foam cells
- ❑ The entire assembly is held correctly thanks to the tension system with cables
- ❑ The wooden panels provide high-performance and dynamic exercise surface while maintaining consistency of the gymnastics area
- ❑ The makings for the 7 x 7 m and 10 x 10 m (by self-adhesive tape) peripheral exercises zones enable the gymnastics area to be visualized exactly
- ❑ Matt surface in conformity with FIG standards
- ❑ Dimensions = 12 x 12m
- ❑ Thickness = 7 cm
