

THE VARIO RANGE

- ❑ Comfortable thanks to its solid and stable foam
- ❑ Different geometrically-shaped modules
- ❑ Featuring velcro strips in various shapes, they enable a multitude of combinations to be created: obstacles courses, adventure trails, or agility circuits
- ❑ Suitable for schools
- ❑ Ideal to discover and learn gymnastics' basics in a fun and safe way
- ❑ Allows progress in a range of situations encouraging motor skill development

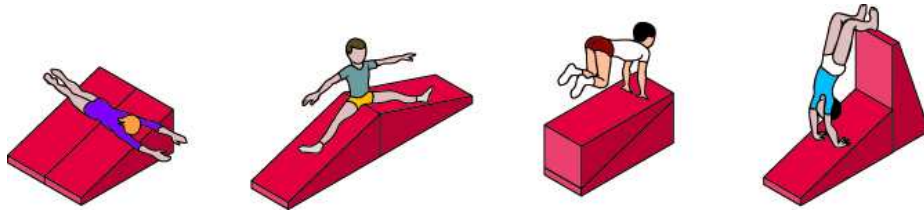

TECHNICAL FEATURES

- ❑ Made from very high quality foam (for stability and durability) and washable fabrics
- ❑ Class M2 fire rating PVC covers
- ❑ Using a velcro system

MODULES AVAILABLE

Ref. 0303 - VARIO VAULTING BOX

This module is used to create technical gymnastics combinations.

Dim. = 150 x 60 x 60 cm
(LxWxH)

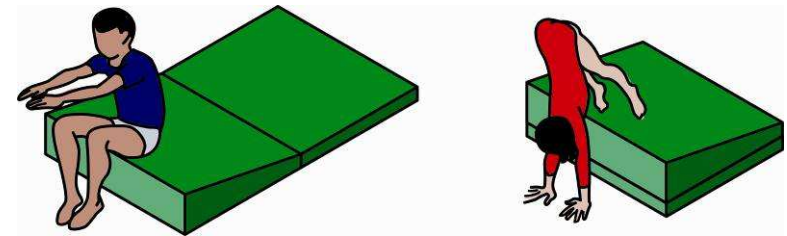

High density foam, carrying handles, provided with velcro

Can be combined with various "Educ'Gym" elements which are sold separately, for example:

- ⇒ The Dyna Beam **Ref. 0312**, for learning gymnastics
- ⇒ The Soft Mat **Ref. 0315**, specifically for Baby-Gym
- ⇒ The Vario Tunnel **Ref. 0304**

Ref. 0307 - VARIO PLAN

A sloped plan with width and slope carefully designed for all rotations (front-back-longitudinal).

Dimensions:

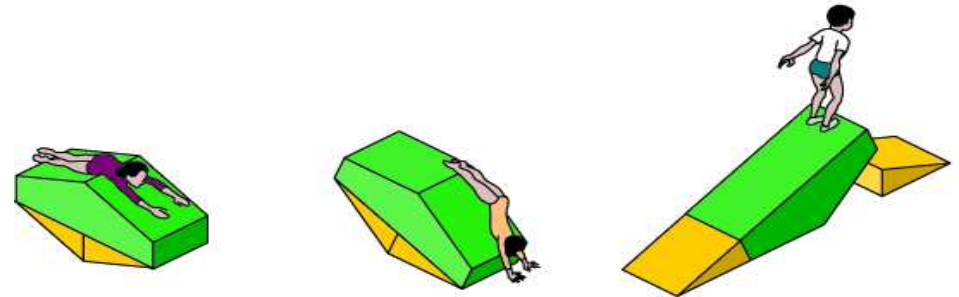

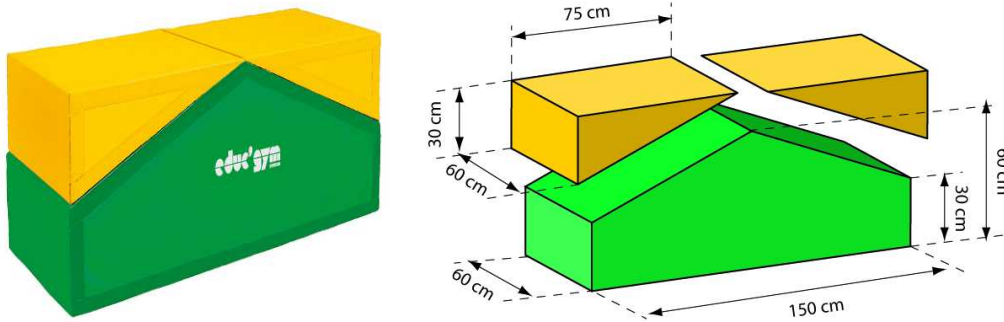

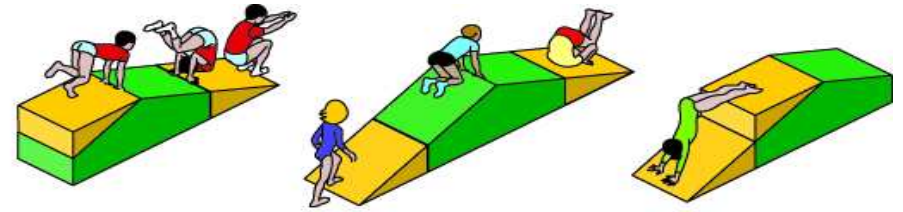

- ⇒ Unfolded: 200 x 120 x 30 / 10 cm (LxWxH)
 - ⇒ Folded: 100 x 120 x 40 / 20 cm (LxWxH)
- Firm foam, carrying handles.

Can be combined with various "Educ'Gym" and Vario range elements, which are sold separately

Ref. 0305 - VARIO BLOCK

The variable geometry block makes either: a box, a sloped plan, a roof, a rocking bridge or hexagon etc. According to the positioning of the modules, you can do front or back rotations. You can slide too !

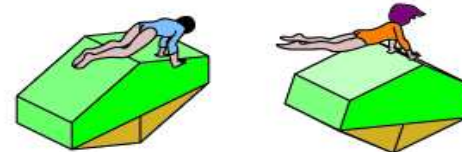

Dim. = 150 x 60 x 60 cm (LxWxH)

Comprises:

- ⇒ 2 sloped plans : 75 x 60 x 30 cm (LxWxH)
- ⇒ 1 box shaped module 150 x 60 x 60 / 30 cm (LxWxH)

Can be combined with various “Educ’Gym” elements to create a multitude of different configurations and courses

Ref. 0306 - VARIO BRIDGE

An original shape allowing different possibilities of assembly: a seesaw, « S » circuits, a wheel, a tunnel, a bridge

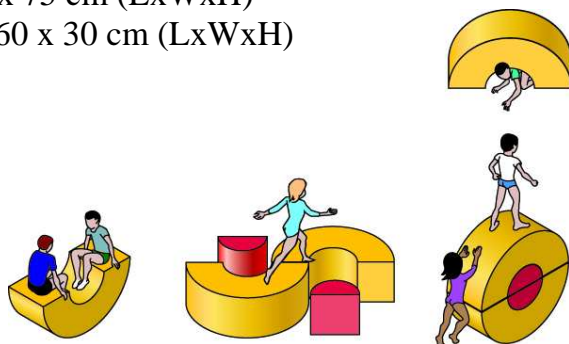

Comprises a bridge and a half moon.

Dimensions:

- ⇒ Bridge: 150 x 60 x 75 cm (LxWxH)
- ⇒ Half-moon: 60 x 60 x 30 cm (LxWxH)

This module can be used to create fun, discovery circuits for young children

Ref. 0309 - TOURO GYM

This module can be used to create layouts for young children to discover gymnastics safely through play

Comprises:

- ⇒ 2 side walls from dynamic foam: 60 x 6 x 150 cm (LxWxH)
- ⇒ 1 high density foam block: 50 x 60 x 90 cm (LxWxH)

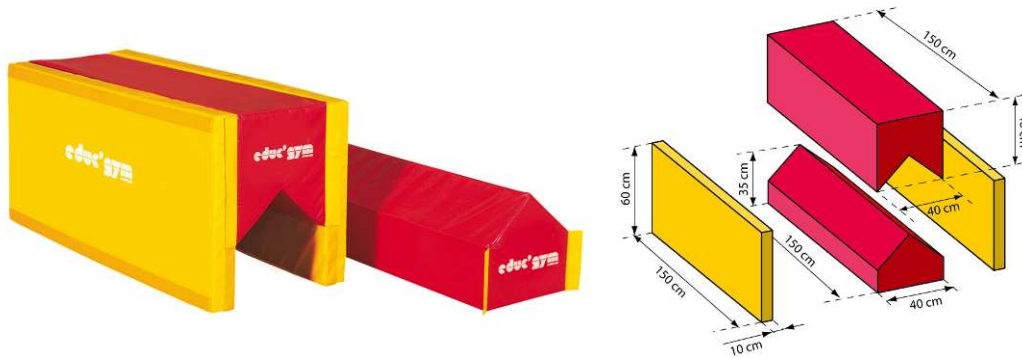

The sidewalls have a velcro system for an easier assembly. This system also allows holding the module firmly together so that children can move around safely.

Can be combined with other elements in the “Educ’Gym” range, such as the Vario’Plinth or the Tobo’Gym.

Ref. 0304 - VARIO TUNNEL

This module can be used to create layouts giving to young children their first introduction to gymnastics. It also helps to develop their psychomotor skills.

Comprises 2 concave and convex foam modules high density and 2 sidewalls from dynamic foam.

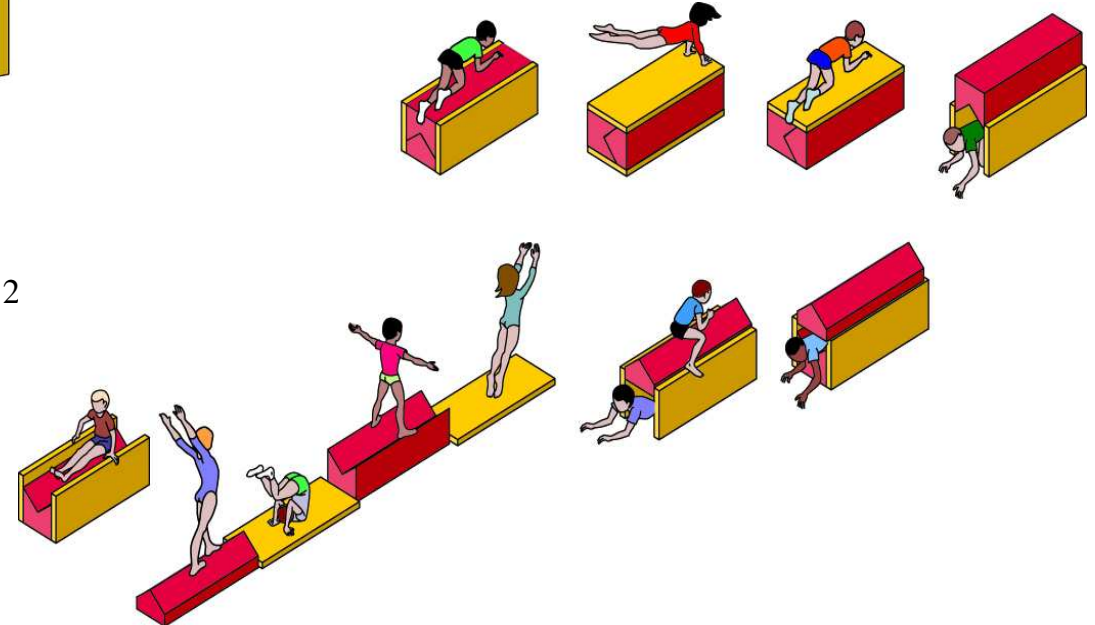

Dimensions:

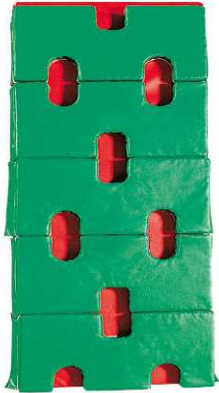

- ⇒ 1 concave module: 150 x 40 x 40 cm (LxWxH)
- ⇒ 1 convex module: 150 x 40 x 35 cm (LxWxH)
- ⇒ 2 slide walls: 150 x 10 x 60 cm (LxWxH)

With this inexhaustible adaptable four-part module you can easily make tunnels, a plinth, a high elasticity plinth, various courses or small parallel bars.

Can be combined with the Vario Plinth **Ref. 0303** or the Half Moon **Ref. 0310**

With this module children can enjoy sliding easily and safely.

Ref. 0319 - SET OF 5 HOLDS

Holds are adaptable to all modules 60 cm wide, allow you to create many circuits with climbing activities.

Ref. 0308 - TOBO'GYM**Ref. 0326 - HOLDS**

Change position of holds to increase difficulty !

This module can be combined with various “Educ’Gym” elements such as:

- ⇒ Holds - **Ref. 0326**
- ⇒ Touro’Gym - **Ref. 0309**
- ⇒ Vario Tunnel - **Ref. 0304**
- ⇒ Maxi Block - **Ref. 0316**

PACK IN THE VARIO RANGE

Ref. 0322 - CLIMBING SET

Sturdy foam. Construct the elements of the course to build a climbing tower with a slide.

Comprises: 1 Touro'Gym, 1 Tobo'Gym, 1 Vario Vaulting Box, 1 set of 5 holds.

Ref. 0321 - MOBILITY SET

Running, jumping, climbing, crawling, balancing... multiple circuits to increase motor skill.

Comprises: 1 Vario Tunnel, 1 Vario Vaulting Box, and 2 Dyna'Beam.

Ref. 0320 - PLAY GYM SET

Numerous possibilities for a fun way to begin gymnastics.

Comprises: 1 Vario'Vault, 1 Vario'Vaulting Box, 2 Dyna'Mats, 1 Vario'Plan, 1 Soft'Mat.

Ref. 0323 - CAVING SET

Comprises: 1 Tobo'Gym, 1 Vario Tunnel, 1 set of 3 holds.

Ref. 0324 - SLIDE/SKI SET

Comprises: 1 Tobo'Gym, 1 set of 3 holds.

Ref. 0325 - ADVENTURE SETS

Using multiple connections, the elements fit together in many different arrangements helping children discover adventure situations like climbing walls and slides.

Comprises: 1 Touro'Gym, 3 Vario Vaulting Box, 2 Tobo'Gym, 1 Maxi Bloc, 2 Brico Gym, 1 set of 6 holds.
