

SPRINGBOARDS NOVA' JUMP « HARD » AND « SOFT »

- Ally security, performance and comfort
- Allows the repetition of exercises and reduces micro-injuries
- Same dynamism level everywhere thanks to the last spring positioned at the lower section of the springboard

Choice of 2 springboards according to the size and the style of the gymnast:

- Hard springboard: Aimed towards the larger sizes
- Soft springboard: Aimed towards the smaller sizes

- Special design that differentiates the hard springboard from the soft springboard

Hard springboard **Ref. 2196**

Soft springboard **Ref. 2197**
