

INFLATABLE TRACKS

- ❑ Intermediary between the Acrotramp and the acrobatic tracks
- ❑ Smooth surface ensuring stability and controlled rebounds
- ❑ Self contained, the track stays inflated for several days without having to use the fan
- ❑ Convenient for all type and level of gymnasts from beginner to elite
- ❑ Ideal for gymnasiums where there are no fixed installations and for shows
- ❑ Allows sequences of acrobatics moves
- ❑ Easy and quick to set-up and repack
- ❑ Possibility to manufacture “made-to-measure inflatable tracks”
