

ROLL-UP GYMNASTICS TRACKS

Tracks are ideals to create multi-purpose training areas. They allow you to quickly set up an area adapted to your training.

At school or in a sports hall, the track is ideal to develop gymnastics skill like jumps or pivots. It can also be used to learn forward rolls, backward rolls, cartwheels and headstands. The track offers a linear training surface suitable for warm-ups.

Thanks to the self-gripping strips, available in six colours, the tracks may be connected to create training areas adapted to each training exercise floor.

These **roll-up** tracks are very easy to set up and store away making them suitable for multi-purpose sports halls. The speed up set up offers more time to fully enjoy the training session.

Thanks to the O'JUMP tracks, you can now create a training area dedicated to learning gymnastics, urban gymnastics, cheerleading or circus.

Tracks rolled, space saving

The roll-up gymnastics tracks are available in two different colours: **Blue and Black**. They are also available in three dimensions and it is possible to customise them thanks to the **personalisation option**.

Colours available:

TECHNICAL FEATURES

- They are made of **ultra-lightweight dynamic** polyethylene foam
- They have a **needle punch** carpet top layer
- They come with an anti-slip base which prevents the track from moving while in use

Thanks to the self-gripping strips, it is possible to create a training exercise floor made-to-measure

For example, 7 x Ref. 212 tracks are needed to create a 14 m x 14 m exercise floor.

References	Size (LxWxTh)	Dimensions rolled (Hxø)	Weight (kg)
210	600 x 200 x 3.5 cm	200 x 70 cm	24
211	1200 x 200 x 3.5 cm	200 x 100 cm	48
212	1400 x 200 x 3.5 cm	200 x 110 cm	56

SELF-GRIPPING STRIPS FOR ROLL-UP TRACK

They can be attached directly to the carpet to very quickly create multi-purpose gymnastics areas or to training exercise floors. They are available in six colours.

Colours available:

Ref. **213** : 25 ml x 10 cm (LxW)

Ref. **214** : 100 ml x 10 cm (LxW)
