

VARIO' TUNNEL

- ❑ Range specially designed to develop motor skills of children
- ❑ Ideal to discover the agility course and to develop the coordination
- ❑ Thanks to its 4 different parts, it is infinitely modulable
- ❑ This module can be transformed in a tunnel, a plinth, a high elasticity plinth, in small parallel bars...
- ❑ Can be combined with various elements of the Educ'Gym range and the Vario range thanks to similar dimensions

TECHNICAL CHARACTERISTICS

- Dimensions: 150 x 60 x 60 cm (LxWxH)
- Made from different densities polyurethane foam
- Phthalate-free 1,000 denier PVC cover with M2 fire rating
- Hook-and-loop strips
- Colors: Turquoise and yellow

Comprises:

- 1 concave module, high-density foam
 - Dimensions: 150 x 40 x 40 cm (LxWxH)
- 1 convex module, high density foam
 - Dimensions: 150 x 40 x 35 cm (LxWxH)
- 2 side walls, high-elasticity foam
 - Dimensions: 150 x 10 x 60 cm (LxWxH)
